CAREER OBJECTIVE

Motivated 3rd-semester Computer Science and Engineering student specializing in Data Science and Artificial Intelligence, with a strong foundation in C, C++, and Python. Seeking opportunities to apply technical skills, problem-solving abilities, and continuous learning mindset to real-world software development and data science projects.

EDUCATION

Bachelor of Engineering (B.E.) in CSE (Data Science)	2026 – 2029 (Expected)
Ballari Institute of Technology and Management (BITM), Ballari	Current CGPA: 9.40 / 10.0
<i>Specialization: Data Science and Artificial Intelligence (Current Semester: 3rd)</i>	
AP Model School	Completed: 2026
Andhra Pradesh State Board	Percentage: 94%

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python
- **Developer Tools & Platforms:** GitHub, LaTeX, Overleaf

PROJECTS

Railway Reservation and Management System — <i>C Programming, File Handling</i>	2026
• Developed a console-based management system in C to streamline train ticket booking and record maintenance. • Implemented modular programming using custom functions, structures, and arrays for structured data storage. • Applied conditional logic and basic file handling mechanisms to manage user requests and data operations accurately.	

CERTIFICATIONS

- [introduction to AI] – [NPTEL] [[2026]]
- [introduction to ml] – [SWAYAM] [[2026]]

ACHIEVEMENTS

- [maintained a good cgpa / certificate of academic performance] – [completed introductory courses / technical workshop] [[2026]]
- [academic excellence / Coding Achievement] – [strong academic performance with 94]

KEY STRENGTHS

- **Core Competencies:** Quick learning, analytical problem-solving, and strong logical reasoning.
- **Soft Skills:** Adaptability, effective teamwork, and continuous enthusiasm to learn new technologies.
